

Agri-SC

Benefits

- Opens up the soil profile so moisture absorbs
- Moisture will work up to the roots in a dry season
- 5 degrees warmer in 4 inch surface soil profile vs untreated soils
- Eliminates crusting before emergence
- Increases root mass
- Keeps rolling ground from washing
- Works instantly
- Soil is loose so less horsepower for tillage
- Reduces needs for liming when used. Increases the Hydrogen molecules and decreases the alkaline soils.

How Applied and Rates

Soybeans & Corn: Broadcast 6 oz/ acre in tight soil

Broadcast 8 oz/acre in very tight soils

**APPLY WITH PRE HERBICIDE in Spring or on bare ground in
Fall or Spring**
